JCH cottage unit Type 145226

Version 01_06

Cottage units are very suitable at places where you want to protect water installations from burst due to frost. You simply close the water, and open a tap inside the house and then just blow air into air valve. This action will empty the pipes for water.

Components:

- 1. Ball valve
- 2. T-piece
- 3. Compression joint
- 4. Compression joint
- 5. Check valve

- 6. PEM-tube
- 7. Connector
- 8. Body
- 9. union nut
- 10. Air valve

- 11. Cap
